2 Prologue

We have been accepting it for many years: the multi-layered responsibility of our entrepreneurial actions. Because for us, "sustainability", "social responsibility" and "quality" are not just words. Years ago, we have written down our values that we share in our mission statement "Sustainable Responsibility" and act and work on it day by day.

Each of our partners every day can trust in our values, such as personal responsibility, openness and transparency as well as a legally compliant and ethically correct behaviour – as an entrepreneur and person at all times.

This is also what "KARMA – we make the future" stands for: Every action and every action has an impact on the future. We want to leave our children and grandchildren a world worth living in. That is our drive and our commitment. Because we only have this one world.

Now, for the first time, this Code of Conduct brings together in detail our important basic rules and principles for a responsible behaviour together and towards the public in one document, which are already binding for us today and in the future.

It offers us an orientation framework and applies equally to each of us – management, managers, every single employee and business partner.

The misconduct of each single person can cause enormous damage to all of us. Therefore, we ask you, dear colleagues, dear business partners, to read this Code of Conduct carefully and use it together with us as a guideline for our daily behaviour.

It claims on ourselves, and at the same time it is a promise to the outside world for responsible behaviour together and towards the public. Together we bear the responsibility.

The management of Weberei Pahl GmbH

Dr. Thomas Lippert

Torsten Göth

3 Our mission statement

WE

Our workplace is not just a job – it is our passion. Together, we embrace diversity to create a work environment where we can all thrive as we are. We always treat each other with respect and dignity. It is our mutually obligation to comply with this high standard.

OUR PRODUCTS & SERVICES

Quality is the focus – this has always been the case and will remain so. We take care of the sustainable cultivation and fair trade of cotton, process it with the utmost care and constantly improve the working conditions of our employees. At the same time, we ensure an increasing ecological production. All this is very important to us, and we will continue working on it.

OUR PARTNERS

Our customers and suppliers are our partners. Together we are a team to achieve common economic and emotional goals. We respond to each other. Customers are also the users of our products in everyday life – whether at home, as a guest or patient. The spirit of our work should be felt positively every second – in the bathroom, while sleeping and at the table

OUR NEIGHBOURS

We are part of a larger community. And we seriously take our responsibility to be good neighbours. Where we operate, we would like to be welcomed. We can make a positive difference by encouraging our partners and the community to do good. But our responsibility – and our potential to do good – is even greater. Weberei Pahl also stands for new standards. We will go ahead.

OUR ENVIRONMENT

We are part of the global community. Therefore, we understand that part of our business activities is in our responsibility to protect the environment. We think ahead – for all future generations.

4 WE - Behaviour towards colleagues and employees

Equal treatment and non-discrimination

A culture of equal opportunities, mutual trust and mutual respect is of great importance to us. We support equal opportunities and prevent discrimination in the recruitment of employees as well as in the promotion or in granting of training and further education measures. We treat all employees equally, regardless of gender, age, skin color, culture, ethnic origin, sexual identity, disability, religion or belief.

Human and labour rights

We are guided by the internationally recognised principles for the protection of human and labour rights, as expressed in the United Nations Universal Declaration of Human Rights, the ILO Core Labour Standards, the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinational Enterprises. In addition, the Code is aligned with the objectives of relevant national initiatives such as the Partnership for Sustainable Textiles or the National Action Plan for Business and Human Rights as well as international agreements for the protection of the environment. In principle, these international agreements bind states – not companies; their enforcement is a state task. We, a company in the textile and fashion industry, support the goal of enforcing human rights, labour, social and ecological standards in economic value creation processes.

We strictly reject any form of forced and child labour. We recognize the rights of all employees. The right to equitable remuneration is recognised for all employees. Remuneration and other services correspond at least to the respective national and local legal standards or the level of the national economic sectors and regions.

For Pahl, a trustful and close cooperation with all employees is an important ingredient and proven key of business policy. The basis of mutual trust and cooperation is an open and constructive dialogue characterized by shared respect.

Occupational health and safety

In addition to the quality of our products and economic success, the safety and health of our employees are an equally important corporate goal.

Occupational health and safety are an integral part of all operational processes and are included from the beginning in all technical, economic and social considerations. Each of our employees promotes safety and health in their working environment and adheres to occupational health and safety regulations. Every manager is obliged to instruct and support his employees in the exercise of this responsibility. Employees of subcontractors on behalf of Pahl are subject to the same safety standards as our employees. This is taken into account in the selection and cooperation with such partners.

5 Our Products & Services – Protection of Company Property

We use the company's property and resources properly and sparingly, protecting it from loss, theft or misuse. The intellectual property of our company represents a competitive advantage for Pahl and thus a good worth protecting, which we defend against any unauthorized access by third parties.

We use tangible and intangible property of the company exclusively for corporate purposes and not for personal purposes, unless expressly permitted.

Wir verwenden das Eigentum und die Ressourcen des Unternehmens sachgemäß und schonend und schützen es vor Verlust, Diebstahl oder Missbrauch. Das geistige Eigentum unseres Unternehmens stellt einen Wettbewerbsvorteil für die Weberei Pahl und somit ein schützenswertes Gut dar, das wir gegen jeden unerlaubten Zugriff durch Dritte verteidigen. Together with their superiors, our employees are responsible for ensuring that the type and scope of business trips are always in reasonable proportion to the respective purpose of the trip and are economically planned and carried out taking into account time and cost aspects.

6 Our partners – Behaviour in business environment

Compliance with law

For us, following laws and regulations is an essential basic principle of economically responsible action. We observe the applicable legal prohibitions and obligations at all times, even if this entails short-term economic disadvantages or difficulties for the company or individual persons. If national laws have more restrictive regulations than the regulations applicable at Pahl, national law takes precedence.

Avoidance of conflicts of interest

At Pahl, business decisions are made exclusively in the best interests of the company. Conflicts of interest with private interests or other economic or other activities, including those of relatives or other related parties or organisations, should be avoided right from the beginning. If they nevertheless occur, they must be resolved in compliance with the law and the applicable company guidelines. Prerequisite for this is the transparent disclosure of the conflict.

Fair competition

The compliance commitment made by the management of Pahl is basis for our actions in the competition: Pahl stands for technological competence, innovative strength, customer orientation and motivated, responsible employees. This is the base of our high reputation and the company's sustainable economic success in global competition. Corruption and antitrust violations threaten these guarantors of success and are not tolerated (zero tolerance). Bribes (including gifts and invitations) or cartel agreements are no means for us to obtain an order. We'd rather give up a business and the achieving of internal goals than violate the law.

Violations are not tolerated and lead to sanctions against the persons concerned.

Verstöße werden nicht toleriert und führen zu Sanktionen gegen die betroffenen Personen. All managing directors, all executives and all other employees must be aware of the extraordinary risks that a corruption or cartel case can entail for Pahl, but also for them personally. Every employee is encouraged to actively participate in the implementation of the Compliance Commitment in his or her area of responsibility.

Prevention of Money laundering

Weberei Pahl complies with its legal obligations to prevent money laundering and does not participate in money laundering activities. Every employee is requested to have unusual financial transactions, in particular including cash, which may give rise to a suspicion of money laundering, checked by the Finance Department in case of doubt.

7 Our Neighbourhood & Environment - Behaviour within society and towards nature

Sustainable environmental and climate protection

Sustainable environmental and climate protection as well as resource efficiency are important corporate goals for us. Both in the development of new products and services and in the operation of production facilities, we make sure that all resulting effects on the environment and climate are kept as low as possible and that our products make a positive contribution to environmental and climate protection for our customers. Every employee has a responsibility to treat natural resources sparingly and to contribute to the protection of the environment and climate through their individual behaviour.

Donations

We see ourselves as an active member of society and are therefore involved in different ways. We provide donations and other forms of social commitment exclusively in the interests of the company. We do not make any financial contributions, in particular donations and sponsoring measures to political parties national and international, party-affiliated or party-like organizations, individual elected representatives or to candidates for political offices.

Political advocacy

We represent political interests centrally, openly and transparently. We follow the legal requirements for lobbying and avoid unfair influence on politics and legislation under all circumstances. We observe the EU Code of Conduct and, if necessary, voluntarily join the German or EU lobby register

Appearance and communication in public

We respect the right of free expression as well as the protection of personal rights and privacy. Every employee should be aware that he or she can also be perceived in the private sector as a part and representative of Pahl and is therefore required to preserve the reputation and reputation of the company through his behaviour and appearance in public, especially towards the media. In the case of private expressions of opinion, we take care not to place the respective function or activity within Pahl / txVision Holding in connection with the private statement.

8 Handling of information

Reporting

Pahl is built on strong values: reliability and honesty, credibility and integrity. Thus, we attach great importance to open and truthful reporting and communication on the business processes of the company towards shareholders, employees, customers, business partners, the public in general and state institutions. Each employee ensures that both internal and external reports, records and other documents of the company are in accordance with the applicable legal rules and standards and are therefore always complete and correct and are timely and system-compliant.

Confidential company information / insider information

We take the necessary steps to protect confidential information and business records from access and insight by non-involved colleagues and other third parties in an appropriate manner. Employees of the Company who possess specific information about circumstances that are not publicly known may not disclose this information, regardless of whether the disclosure of the inside information is done intentionally or with gross disregard of due diligence.

Data protection and information security

The protection of personal data, especially of employees, customers and suppliers, is of particular importance to Pahl. No personal data may be collected or processed without legal admissibility or the consent of the data subject.

9 Implementation and contact person

Pahl actively promotes the communication of the guidelines on which this Code of Conduct is based. The company ensures their implementation and ensures that no employee is disadvantaged by compliance with the guidelines.

Our managers have a special role model function and can be measured in their actions to a particular extent by the Code of Conduct. They are the first contact for questions regarding the understanding of the regulations and ensure that all employees know and understand the Code of Conduct. They prevent unacceptable behaviour within the scope of their management tasks or take appropriate measures to prevent violations of rules in their area of responsibility. Trust and good cooperation between employees and managers is reflected in honest and open information and mutual support.

For further questions about this Code of Conduct, all employees and third parties (customers, suppliers, etc.) also have access to the central e-mail address codeofconduct@weberei-pahl.de.

All information will be treated as strictly confidential.
